Status of the Project Implementation related to each Workpackage

By now the Capitalization Strategy was defined in 3 Working Group meetings (WP 4)

About 25 workshops and round tables with stakeholders and experts were implemented by all Project Partners to get information on their needs and to inform about the goals of AlpBC.

The framework of analysis (Inter Municipal Concept "IMC" and Regional Closed Loop Economies "RCLE") for WP 5 and 6 has been set up as well as a feasibility study for implementing a RCLE around hemp within the Community of Municipalities of Crest. All partners started working on the "Questionnaire on Regional Closed Loop Economies (RCLE) (WP5)

Our Austrian Project Partner "Energieinstitut Vorarlberg" has conducted a research on the history, financing and function of the "Regional Board" for Building in Vorarlberg in order to prepare the work of transferring the good practice example to other regions.

The creation and definition of concept for AlpHouse Center and AlpHouse Contact Points has started. A concept of field trips was planned in combination with the first Participative Symposia in Bregenz. (WP 7)

Our Austrian Partner "Wirtschaftskammer Salzburg" was involved in two contributions in the ORF TV on the activities on the topics of AHC Salzburg (WP 3)

Please have a look on www.alphouse.eu for the latest news and information.

monumento
salzburg MATERIAL & EMOTION
FACHMESSE FÜR DENKMALPFLEGE

The project AlpBC was presented at fair “Monumento” 16.-18. Januar 2014 in Salzburg. Numerous stakeholders attended the conference session with nationally renowned speakers

With the fair „Monumento”, the second time in Salzburg, an international platform for conservation, preservation, restoration was created and thus promoted the awareness of heritage preservation was promoted

The motto of the fair was „Stone“ .The project AlpBC was presented by a Community fair stand (Deutscher Pavillion). The booth was visited by a large number of interested visitors which discussed with us about possibilites concerning (energetic) renovation of existing buildings and the needs for education within this sector.
