

General information			
Category	Technology and Energy		
ID	QM 4.1.1		
Title	Education series AlpHouse- Topics of Concrete Structures – 6 Modules Modul1 - The AlpHouse philosophy and building physics fundamentals		
Duration	1 day, 8 hours		
N. participants	8 - 20		
Location	Classroom		
Target group	Architects and Planners		
	Craftsman and SMEs		
	Building Owners		
Characteristics of the Qualification Module			
Aims	In this module the basic considerations of AlpHouse philosophy are presented. It also explains the physical building bases and discusses the issues involved.		
Methodic Approach	<ul style="list-style-type: none"> ▪ Lecture ▪ Group discussion of the content ▪ Processing of practical examples 		
Contents	<ul style="list-style-type: none"> ▪ Traditional design and craft techniques ▪ Vernacular Architecture and Heritage ▪ Good and bad examples ▪ Fundamentals of Building Physics and Energy Efficiency ▪ LCA to local building materials 		
Learning outcomes	Overview of the content		
Final Certification	Certificate of attendance		
Conception			
PP Leader	LBH – BauAkademie Lehrbauhof Salzburg		
Contact person	DI Ronald Setznagel – Management DI Wolfgang Konrad – Consultant, project staff		
address	Moosstraße 197, 5020 Salzburg, AUSTRIA		
phone	+43 (0) 662/830200	fax	+43 (0) 662/830200 34
